BRINGING DREAMS TO LIFE

Symphony 12, Grey Quartz

With over 50 years of experience, Narellan Pools is New Zealand's most trusted brand. With our pool shells locally manufactured in Hamilton and installed by our local pool builder network, we specialise in high-quality fibreglass swimming pool construction projects that create unforgettable family memories.

We are dedicated to helping clients achieve the 'Great Kiwi Dream' by designing beautiful pools that foster your most precious connections and enjoyment. Our skilled network of local pool building teams focus on personalised experiences and transparency, ensuring your satisfaction in bringing your vision to life.

Our network of local pool builders operate across New Zealand, Australia and Canada.

At Narellan Pools, we believe every pool is a place for life's best moments. Let's make your dream a reality!

SPAS & SPLASH DECK

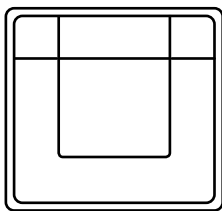

You can create the combination of your dreams with our range of beautiful Neptune spa and Harmony Splash Deck. Designed to complement our range of swimming pools, our spa and splash deck offer a perfect blend of style and functionality.

Our Neptune spa offer contemporary, clean lines that will complement your property perfectly and blend with a wide variety of surroundings. If a luxurious, relaxing experience is what you're after, a spa from Narellan Pools will tick all the boxes.

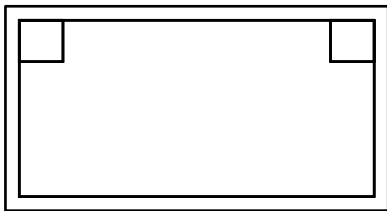

Our Harmony Splash Deck has been especially built for children, and perfectly complements our inground swimming pools. With a shallow depth, it's a great space for little ones learning to swim, and just as ideal for an afternoon of lounging with friends.

Features

- Shallow, single pool depth perfect for lounging or for young children to play in.
- Durability, strength and resilience-tested fibreglass shell

ABOVE GROUND POOLS

You can build the pool of your dreams in backyards that previously would been deemed cost-prohibitive or impractical. Our specially engineered above ground pools allow you the flexibility to work with our expert Pool Builders to design a backyard that suits your budget and lifestyle.

When it comes to installation, our above ground option is designed to save you time. These self-supporting pools can mean a sloped yard or a yard with a high water table, doesn't stop you from achieving your dream of owning a swimming pool.

Don't compromise your outdoor pool design with an unsightly alternative. With an above ground pool, you can enjoy a seamless design which will provide you with a wonderful poolside lifestyle.

FILTRATION & SANITISATION

A healthy and safe pool starts with the right foundation: balanced chemistry, efficient circulation, quality filtration and low maintenance sanitisation.

Keep it Balanced

- Proper alkalinity, pH and chlorine levels keep water safe, clear, and gentle on swimmers.
- Get your water tested regularly at your local pool shop and follow their advice to keep your pool safe and healthy.

Energy-Efficient Circulation

Although single speed pumps are still used on many pools, consider a variable-speed pump which enables you to adjust the motor speeds to suit the usage situation. These pumps can save up to 70% on energy costs!

Consider the AstralPool XT range of variable speeds pumps – a popular variable speed pool pump delivers immediate energy savings and peace of mind.

Superior Filtration

There are 2 main choices when it comes to pool filters. Both can provide you with crystal clear water:

- A cartridge filter captures fine debris and reduces water use by 90%. However, they do require a little more cleaning. The Zodiac CV or AstralPool QL cluster cartridge filter is the ideal choice for all sized pools.
- The alternative is to go for the low maintenance option like the Zodiac Fibreglass or Thermoplastic Titan Series media filter, used with either sand or recycled glass for deep, thorough cleaning that requires only periodic backwashing.

CTX Pump

VIRON XT Pump

www.astralpool.co.nz/pool-pumps

CV Filter

Titan Filter

www.zodiac.co.nz/pool-filters

Hassle-Free Sanitisation

- A high-quality saltwater chlorinator provides consistent, low-maintenance sanitisation, you just need to add salt or minerals to the pool every now and then.
- A variety of AstralPool and Zodiac chlorinator options are available to suit your budget and needs, from the basic to the more sophisticated sensor-driven models.
- For an extra layer of protection, Mineral Guard adds a powerful all-natural secondary sanitiser that will help keep your pool sparkling and pristine.

Experience Luxury

Last but not least is the water itself. You can go down the traditional route and choose a saltwater pool or if you are after something a little more luxurious MagnaPool minerals are the way to go. They provide the ultimate in bather comfort and produce water that is gentle, soothing and rejuvenating every swim. Ideal for kids and for those with sensitive skin, MagnaPool gives the water a silky feel unlike anything you've ever experienced!

Grandeur 11, Grey Quartz

ROBOTIC, SUCTION & SELF-CLEANING SOLUTIONS

Maintain a sparkling pool affordably with Zodiac's range of automatic pool and spa cleaners. Spend less time on pool maintenance and more on enjoyment. Zodiac offers a wide selection of user-friendly high-quality robotic cleaners, suction cleaners, and self-cleaning systems for all types, sizes and shapes of Narellan pools.

Robotic Cleaners

Robotic pool and spa cleaners are self-contained and collect debris in a filter canister. They have built-in intelligence to avoid getting stuck and offer excellent pool cleaning coverage.

For a cordless robotic cleaner, choose the FreeRider™ iQ equipped with a high-power lithium-ion battery offering expert cleaning without intervention. Highly efficient, easy to use and cable-free, it gets into the tightest of corners on all types of pool surfaces. The AppControl enables greater control and improved monitoring of the battery status.

App connectivity allows you to better control and monitor the cleaner's progress. It also gives users two additional cleaning mode options - SMART cycle and Waterline only cycle. The FR2000 iQ comes with an innovative hand-held remote control that communicates underwater for easy control and retrieval of the cleaner by activating the Lift System.

Suction Cleaners

Installing Zodiac suction cleaners is a breeze. Just attach them to your skimmer box and you're good to go. Powered by your filtration pump, these suction pool vacuums clean the pool floor in a random pattern, collecting debris and depositing it into the skimmer basket. For powerful suction capability – choose the AX20 Activ designed for effective floor and wall cleaning.

Self-cleaning System

Keep your pool glistening with our custom-designed Vortex In-Floor Pool Cleaning System. Tailored specifically to your Narellan pool shell, this advanced solution automatically removes debris and dirt from every corner via a series of cleaning "heads" that systemically pop-up from the pool floor and stairs, and pushes debris towards a central drain system. A self-cleaning system is like a personal caretaker for your pool, ensuring it stays pristine with minimal intervention.

**MORE FUN,
LESS HASSLE**

FreeRider™ iQ Robotic Cleaner

PERFORMANCE WITH NO COMPROMISE

HEATING

Maximise your pool usage year-round with an AstralPool pool heating solution.

A pool heater can be beneficial for a number of reasons, including:

• **Extended swimming season**

A pool heater can allow you to use your pool for more than just a few months of the year. You can enjoy your pool all year round.

• **Consistent water temperature**

A pool heater can help you maintain a stable water temperature, which is especially important for therapeutic use.

• **Relaxation**

A well-heated pool can be a comfortable place to relax or float.

• **Health benefits**

You can continue to exercise in a warm pool and reap the health benefits of swimming.

Some of the most common types of pool heating systems includes electric heat pumps and gas heaters.

• **Heat pumps**

Heat pumps are the most common pool heating solution today. Heat pumps use electricity to heat your pool, with two types available: standard and advanced inverter technology. Inverter technology allows the heat pump to reach higher temperatures efficiently, reducing energy use and environmental impact. In most situations, they will heat pool water relatively quickly and cost efficiently. They work more effectively in temperate or humid climates. They rely on warm ambient temperatures, so they may not be suitable for cold climates.

• **Gas heaters**

Can quickly and efficiently heat your pool to a comfortable temperature. Gas heaters are a good option for cold climates or winters.

AUTOMATION

Imagine a pool that listens, learns, and responds—always clear, perfectly balanced, and hassle-free. This isn't science fiction; it's Halo Connect, a revolution in pool care that brings automation and intelligence together.

Owning a pool should be about enjoyment, not maintenance. Like a smart home, Halo Connect automates water care, keeping your pool healthy and safe for relaxation - anytime, anywhere.

A Seamless System

Halo Connect, the next level of pool sanitisation and automation, comprises a modular system of connected devices designed to make pool automation easy and affordable:

• **Halo Chlor & Halo Pure**

Reliable, low-maintenance sanitisation for crystal-clear water; choose standard or low salt versions to suit your preference.

• **Halo Hub & Halo Xpand**

Harness all your equipment under the Halo ecosystem with these smart modules. These are added to your Halo Chlor to provide control of more equipment and devices, either from the start or down the track if you add more devices to your pool.

• **Halo Lite 2 and Lite 4**

To illuminate your pristine new pool and give your pool parties memorable light shows.

• **Halo Doser & Smart Sensors**

The Halo pH and Chlorine Sensor System ensures optimal water chemistry management for your pool. Featuring advanced Bluetooth sensors, this system requires no wiring and offers effortless control over your pool's pH and chlorine levels. Keeps maintenance to a minimum and the water healthy and ready to swim.

Each part of the system is designed not to just function, but to simplify water chemistry management. Making pool care not just easy, but almost invisible and controlled. All from your smart phone!

Get the **HaloChlorGo** app

Water, Reimagined

The beauty of Halo Connect isn't just in its technology—it's in what it gives back: time, freedom, and peace of mind. Get rid of the day to day hassles of pool control and focus on what really matters—relaxing and making memories. Because a pool should never feel like a chore. It should feel like an invitation—to unwind, to connect, to enjoy. This is Halo Connect.

ACCESSORIES & DESIGN FEATURES

So, you've chosen the pool of your dreams, but now it's time for the pool equipment that turns a good swimming pool into a great one. To enhance the aesthetics and sometimes functionality of your pool, we've got an array of swimming pool accessories to bring your aquatic experience to life for a little bit extra.

○ Pool Lighting

Swimming at night can be dangerous without adequate lighting, but that's not the only purpose of pool lighting. The right lighting solutions can transform your pool space, and work effectively as general-purpose mood lighting for all kinds of backyard activities.

○ Swim Jets

Not everybody has a backyard big enough for a full-sized swimming pool that offers the space to swim laps. Swim jets use high-powered water jets to allow you to swim in place in even the smallest of swimming pools.

○ Water Features

Your swimming pool doesn't need to be just for swimming. In fact, you will spend more time out of the pool than in the pool overall—you can't be swimming 24/7. The addition of water features transforms your swimming pool from a simple place to take a swim into an artful central piece to your backyard.

FUN & GAMES

Say no to boring pools! Bring the excitement of a waterpark to your own backyard with pool slide, diving board, in-pool volleyball or basketball game. Be the kids' hero this summer and kit your Narellan pool out with a slide, pool game or in-pool furniture.

○ Slides

SR Smith pool slides are made in the USA and are the leading brand of slide in Australia and New Zealand. Manufactured from high-quality corrosion-resistant material, SR Smith pool slides are available in both removable and deck mounted options. Available in a range of colours and different configurations. Ranging in size from the SlideAway at just over 1.5m, to the towering TurboTwister that tops out at 2.6m, they resist fading and scratching, and retain their luster for years to come. We believe fun and safety go hand in hand. That is why all of our slides fully comply with the U.S. Consumer Product Safety Commission's Standard for swimming pool slides (CPSC 16 CFR 1207). Whether it is our enclosed ladders, easy to grip hand-rails or non-slip treads, safety features are integral to every one of our slides. SR Smith pool slides are engineered to deliver serious fun, season after season!

○ Pool Games

Take your swimming pool to another level by installing semi-permanent poolside games. High quality, durable construction, each product comes with removable posts, and anchor caps that sit flush to deck when not in use. Various options available including:

- **Swim N' Dunk Basketball:** Dual post frame.
- **Single-Post Basketball:** Single-post basketball game
- **Swim N' Spike Volleyball:** Competition quality net.

○ In-Pool Furniture

Pool better with SR Smith in-pool furniture. Turn your pool into a backyard retreat you can enjoy both day and night with in-pool furniture from SR Smith. The popular Destination Lounger™ lets you relax and enjoy the pool without a splash. Elegant design and sturdy construction combine to give you the ultimate in-pool lounging experience.

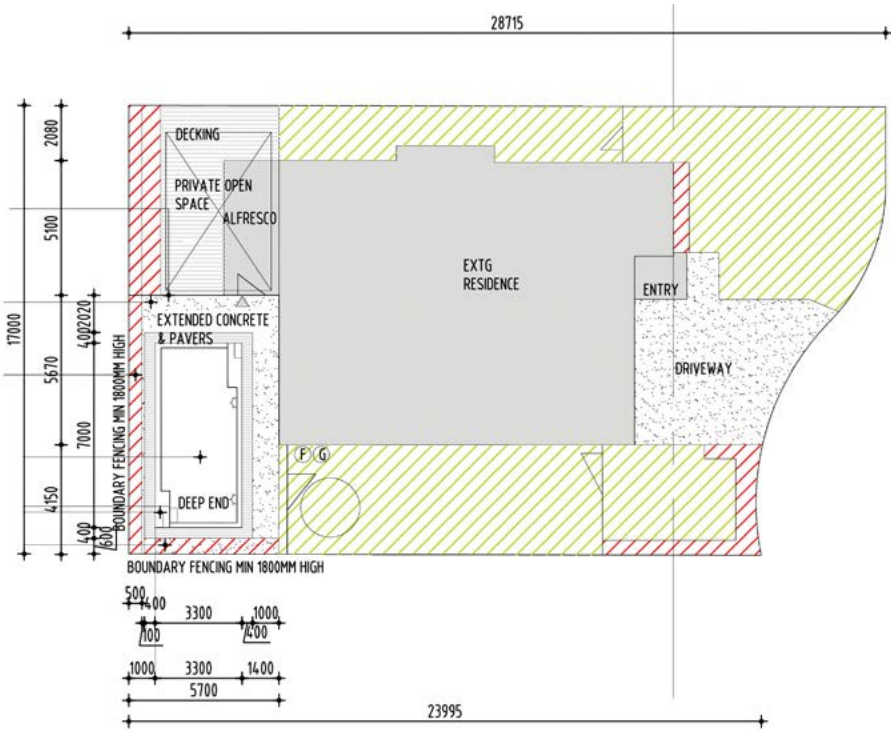

INSTALLATION

Bringing your dream to life with Narellan Pools.

Installation will be provided by highly qualified, fully licenced, locally owned and operated Pool Builders. We're proud to have the best trained Pool Builders in the industry. Your dream pool is in the best hands - we will take care of everything for you.

With our five-step process, building your dream pool is often faster than you think. Your local Pool Builder will help guide you through each stage, from conception to completion.

1 Conception and Consult

During your design consult, we will create your site plans and discuss and design what you wish to achieve with your swimming pool and its surrounds.

We can also map out optional needs like landscaping and paving and begin the process of securing necessary statutory approvals.

2 Excavation

After your plans have been approved, your local Narellan Pools Builder will prepare the site for excavation and begin the process so that your pool shell can be placed in position.

3 Construction

Your pool will be delivered to your site and carefully placed into position. All plumbing and filtration equipment will most likely be installed at this time as well, depending on your contracted scope of works and the site.

4 Structural Beam

The final structural component of your pool is the pouring of the structural bond beam on top of the pool edges. The beam is designed to act like a seal, and with the support of backfilling and drainage your in-ground pool will be locked securely into the ground.

5 Handover

After completion of the construction steps, your local Narellan Pools Builder will carry out a 'handover' process. You will be instructed on how to use and maintain your pool equipment and water chemistry. You will also receive the Narellan Pools 'Pool Owner's Manual' to equip you with the information you need to help care for your pool in line with our warranty requirements.

Client Care

Narellan Pools has built its reputation as a leader in our industry by focusing on quality and integrity. Not only will we look after you during pool installation, we'll also be ready to help if a problem arises. We have a dedicated Client Care Team available to help, so you'll feel confident you have all the information you need.

You can contact us via clientcare@narellanpools.com.

OUR WARRANTY, YOUR PEACE OF MIND

Narellan Pools manufactures fibreglass pools to the highest standards, and we're committed to ensuring your experience owning one is hassle-free.

We aim to ensure your investment in future-proof so you will have total peace of mind*.

***Disclaimer:** For more information in relation to the Narellan Pools warranty (including warranties on the surface or above ground pools, warranty coverage, applicable warranty periods, conditions for making a claim and warranty exclusions) talk to your local Pool Builder.

FEEL ASSURED AT EVERY STAGE

Our unwavering commitment to safety and quality is entrenched in every part of our business.

We have multiple quality accredited ISO 9001 manufacturing facilities guaranteeing stringent quality control and checks at each stage of the swimming pool manufacturing process.

Our dedicated Quality team is assigned and has 100% control over your pool's pre-dispatch reports, logistics planning and safe arrival.

After installation every client is contacted to ensure complete satisfaction. We measure ourselves and our teams against our client's feedback with our Net Promoter Score to ensure closed-loop accountability.

WE'RE IN THIS TOGETHER WHICH MEANS OUR WORK BEHIND THE SCENES ENSURES YOU CAN FOCUS ON SWIMMING

INTRODUCING NARELLAN POOLS

AUGMENTED REALITY (AR) APP

The first step in the journey that will **change your family life**

The Narellan Pools Augmented Reality (AR) App uses cutting edge technology to digitally place any Narellan Pools swimming pool to scale, in your backyard. Augmented reality allows you to interact with a virtual world. With this technology, Narellan Pools AR brings the pool showroom into your backyard!

Narellan Pools AR App allows you to play around with your design ideas, so you can see what align with your vision and what works best with your backyard. Deciding between a Symphony or Grandeur? Bring up Narellan Pools AR to see both pools in full scale in your yard. Selecting the right pool colour is also made easy with Narellan Pools AR. Whether you're leaning towards Whitehaven Pearl or you're contemplating Blue Agate, Narellan Pools AR will help you get a clear picture of the pool colours you love.

Download the **Narellan Pools AR App**

Use Narellan Pools AR to:

- View any Narellan Pools swimming pool in 3D, miniature or full-scale - the choice is yours!
- Get a clear visual idea of how one of our pools will look in your backyard.
- Instantly access dimensions of your favourite Narellan Pools designs - the details are all in one place.
- Share digital visuals of your dream pool with your family and friends via text, email or Facebook.
- Show your local Narellan Pools Builder the pool designs and colours you're considering.
- Get even more excited about starting the journey to your pool!

LOCAL POOL BUILDERS, NATIONAL SUPPORT, INTERNATIONAL PRESENCE

Manufactured and installed by Narellan Pools, the company that has built its reputation as a leader in fibreglass swimming pool installation with a client-focused approach. Local Pool Builders, highly trained and supported by Narellan Pools’ world-class systems, ensure a personalised, transparent, and hassle-free experience. We had a look around before we picked Narellan. Once we met Kerry, there was no chance of us picking anyone else. She's great to talk to and with her experience she gives very sound and logical advice. Suggesting what would suit. Right down to fencing, plants and colour. Then there is Mike who measured up the area before sending in his team put the pool in. All did a very professional job. Were very helpful and supportive all the way through. Last but not least Ashleigh. Who managed all the admin and kept things in order. Very big thank you to you all. We love our Narellan Pool.

We had an amazing experience going with Narellan Pools Coromandel to achieve our dream of having a pool. Olivia and Gary were fantastic to deal with from the initial consultation with no pressure to purchase a pool to the final stages of handover. We highly recommend these guys as they were so professional and we feel confident as new pool owners that we know what to do. If you are considering a pool then definitely get Narellan Pools Coromandel to come have a chat.

Belinda Caminada

The team at Narellan were brilliant I highly recommend them. From the friendly sales staff which nothing was a problem to the installation team, who were so professional and friendly. The whole process was enjoyable. I decided on 2 water features which I love and they look and work perfectly. I'm so happy with my pool and will be recommending them to anyone I know looking to install a pool. Thanks Narellan for my dream pool.

What an easy experience and adventure from the get go. We met Steven initially and found him easy to deal with, informative and could give us an install timeframe that day. From there the team have also been easy to deal with through the install process giving us good guidance and direction. Best decision we have ever made thanks Steven, Levi and the Narellan pools team! We love our pool! Bring on summer!

10/10 job! These guys were super efficient and had the pool installed within a matter of weeks. It has made a great addition to our holiday rental property. We went with the Nirvana 7 which has the splashdeck in Blue Agate with White Quartz coping tiles.

Mark Colley

We recently had Narellan Canterbury install our pool and the experience was exceptional from start to finish. The communication throughout the project was outstanding - they were always available to answer our questions and kept us well-informed every step of the way. They were incredibly proactive, making sure we knew what to expect and staying ahead of any potential issues.

The installation was impressively fast and the team stuck to the timeline they promised. We are very happy with the final result. Highly recommend Nicole, Andrew and their entire team.

We thoroughly recommend the team from Narellan Pools Gisborne in creating the pool of your dreams. Ash was great to work with - thoroughly professional and collaborative in his approach and meticulous in his finish. He used his expertise to help us create a fantastic pool and environment in our backyard.

We have now purchased two pools from the Narellan team, and both times we found the entire process well organized and delivered as promised. We were dealt with in a professional manner and would recommend them to anyone.

Installed with Narellan Pools Bay of Plenty

★★★★★

Rebekah Masters

Highly recommend the team at Narellan Pools Northland. The large fibre glass pool, paving and glass fence look stunning. The team were friendly and easy to work with throughout the project.

★★★★★

Jonathan Wright

Great experience and service with Steve, Adam and team. The pool went in while we were overseas. Good communication and we got exactly what we wanted when we returned. Good level of detail and thinking outside the box. The pool and accessories are really well made and hi level spec comes as standard (no cheap parts or cheap brands). Would definitely highly recommend if you are considering a fibreglass pool. Cheers!
